Online Food Delivery System – Full stack project

The system allows users to order food online, checkout, and bookmark their favorites.

Link: https://github.com/NgandaGladys/OnlineFoodDelivery_System

Tech stack: Python Backend, Javascript Frontend

Design Projects– UI & UX

The mockup is for an Online food Delivery System that enables users to make orders for their favorite foods

Link: https://www.figma.com/file/hY2DFml3LkEBWVTZA6Evh2/Online-food-Delivery-System(Group3)?type=design&mode=design&t=H0MMXV9vkMiJppQu-1

The mockup is for Clean Water and Sanitation System which focuses on the SDGs(6) that calls for access for clean water and sanitation for all.

Link: https://www.figma.com/file/5T3bXvwrJld3EFYi83RHwn/SDG-6?type=design&mode=design&t=H0MMXV9vkMiJppQu-1

Design Tool Used: Figma

Regards, Nganda Gladys.

Thank you for your time and consideration.
